

Reachout Program

The students of salesain college Siliguri campus organized a charity event on sat 18 th august 2012 in their college campus itself. Herein, they invited the poor evening school children around 500 in number along with their teachers. They had collected funds voluntarily for this activity from all the students as well from outsides. It was started at 11 am and continued till 4:30 pm in the afternoon. They had full interaction, fun, learning within this time apart from lunch. They were even provided with prizes in game they played and each and every student was given small valuable gifts while returning home. This event had a great motive of bringing big smile on the faces of innocent children who don't have the same opportunity as all normally get. It was just a small Koshish which went out to be seen in the happy eyes of the childrens as well as satisfaction in the eye of salesain college students. It is hoped by them to organize such events every month and are trying to put into action another event for the help of leprosy patient in Jesu Asram, Matigara.
