

"Social awareness of children in need"

On 23rd of March, 2013 Fr. George Menamparambil delivered a guest lecture on "Social awareness about children in need". For a long time Fr. George Menamparambil in-charge of Bosconet -an NGO which raises funds for underprivileged children to provide them basic education. With the motive of spreading social awareness among us and also to raise funds he came to Salesian College, Siliguri Campus and gave an audio-visual presentation projecting the life of brick factory workers. It has been noticed overall that these children are mostly below 14 years who do not even get the opportunity to go to the school because there is no one to pay their tuition fees at home. So, from Childhood they are pushed into this business as their minds are set to earn rather than to learn. So, on behalf of the organization he came to ask for our co-operation to save the childhood of these children. The presentation lasted for an hour and seemed to be an eye-opener for the teaching staff who were present there.
